PROFESSIONALEXPERIENCE

PROJECT #1 Mar 2020 – Present

Project Title	: Anthem Corp Apps PSD
Client	: Anthem USA
Environment	: Mainframe Regression Testing
Period	: Mar 2020 – Present
Team Size	: 5
Location	: Offshore (Bangalore)
Tools Used	: OH Mainframe, CA Mainframe, WinSCP, Putty, Red Card, OnDemand, JIRA

Description:

Anthem Insurance Company grew out of two Indianapolis, Indiana based mutual insurance companies, Mutual Hospital Insurance Inc. and Mutual Medical Insurance Inc. formed in 1944 and 1946. The companies grew significantly, controlling 80% of the medical insurance market in Indiana by the 1970s. In 1972, they came together to create a joint operating agreement, and merged in 1985 as parent company, Associated Insurance Companies, Inc, to form Blue Cross and Blue Shield of Indiana.

WellPoint, Inc. was formed in November 2004 following a merger of Anthem and WellPoint Health Networks Inc. The merger was structured as Anthem acquiring WellPoint Health Networks and rebranding itself WellPoint, Inc. When the deal was originally announced in October 2003, the merger was set at \$16.5 billion. The fair market value of the merger when completed in December 2004 was approximately \$20.8 billion. At the time of the merger's completion, WellPoint was the largest American insurer. In December 2014: WellPoint changed its corporate name to Anthem Inc.

Responsibilities:

- Involving in Test data support through Vendor requests.
- Involved in peer reviews for other requests.
- Changes JCL & set up TestJOB.
- Involved in design test scenario and design document and peer review process for coverage.
- Track the defects for all releases and follow up for closure ontime.
- Sending TCM and Testresults for on-site review.

CERTIFICATIONS
